# INCREASED PRECAUTIONS FOR FOOD HANDLING

Our local restaurants are observing the highest standards for cleanliness and sanitation and the local health unit is working with those businesses to ensure food safety measures and COVID-19 precautions are in place to keep our community safe.

For those places that will offer takeout and delivery, social distancing (2.5 meters or 6 feet) practices are required to maintain a healthy environment.

Please be advised that many restaurants are moving to cash-free transactions and are encouraging use of advance ordering either online or through a dedicated mobile app, where available.
